# VERSE 1

1

The highs and the lows the depths or shallows

Before the dawn breaks and night turns to day

Though weeping endures the outcomes unsure

You'll find me at the alter my threshing floor of praise

# **PRE CHORUS**

6

Cause I know

you'll save me from the fire

But even if You don't

#### **CHORUS**

I won't wait to love You, Lord, no I won't I won't wait to love You, Lord, no I won't Mountain high or valley low I'll praise You God I won't wait to love You Lord

### **TURNAROUND**

# **VERSE 2**

1

In mysteries grey, when light fades away

My trust is in You, You always come through

Before the promise, when answers delay

I still will give You my heart, the gold refined in flame

# **BRIDGE 1**

In the whirlwind you're the center

In the furnace you're protector

In the silence You are speaking

In the valley You are leading

In the tension, you're revealing

New dimensions of your nature

It's your goodness, and your mercy

You are with me, You are for me

#### **BRIDGE 2**

I'll sing before the mountain 1/3

I'll worship in the pain

Not waiting for the breakthrough

Not wondering what I'll gain

So I won't wait to love you

I'll join with all the saints

In suffering or in triumph

My first response is praise
