## VERSE 1

4                    1                    6                    5  
Comfort for the questions rest inside the pain  
4                    1  
The future lays in your hand  
6                    5  
Sovereign are your ways  
4                    1  
Far beyond my understanding  
6                    5  
A gift You love to give  
4                    1  
I need it in this moment  
6                    5  
I need it now to live

## CHORUS 1

4                    1  
Peace just peace  
4  
When I don't have the answers  
1  
Breathe peace

## VERSE 2

4                    1  
The why is lord of my mind  
6                    5  
The how sits on the throne  
4                    1  
And a symphony of problems  
6                    5  
Makes me feel like I'm alone  
4                    1  
But the cure to all my worry  
6                    5  
Is more simple than it seems  
4                    1  
Just a name that's softly spoken  
6                    5  
Bringing gentle waves of peace

## CHORUS 2

4                    1  
Peace just peace  
4  
When I don't have the answers  
1  
Breathe peace  
4                    1  
Peace just peace  
4  
When I can't comprehend it  
1  
Breathe peace

## BRIDGE

4  
I will not fear in my weakest state  
1  
When darkness falls and the earth gives way  
4  
I look toward the dawn  
6                    5  
Help is on the way help is on the way  
4  
You are the calm even in the storm  
1  
Your strength sustains when I can't go on  
4  
This is the truth  
6                    5  
I am not alone I am not alone

## CHORUS 3

4                    1  
(I have) Peace such peace  
4  
When I can't comprehend it  
1  
Breathe peace
